

**Activity report**  
**on the Local Flavours project meeting**  
**18<sup>th</sup> March 2022, Friday, 11:00 A.M.**

**Participants:** Erika Zonda, General Director - Programs and Projects General Department & Project Manager, Enikő Farkas, Deputy General Director - Programs and Projects General Department, Károly Szabó, President – Association of Csíkszéki Erdélyi Kárpát.

**Topic:** Discussions on the implementation of Action 1 of the Local Flavours Action Plan

Action 1: Infrastructure development of heritage tourism

One of action steps is the Costume designer application. The goal is to create a folk costume designer application, with which the user can design its own traditional folk costume. The application's target groups are those people who are interested in the steps of making a traditional costume. The application will also provide to tourists the opportunity to gain insight into the traditional tourism. Based on the information entered, the folk costume that the interested party can make is displayed according to his own region, gender and age.

There is a plan to create a professional premium, the purpose of which is to find out the criteria of the application and to create the soft, which the Csíki EKE could apply for, at the CsíkLeader.

The above activities were discussed during the meeting in order to start planning the phone application.
